

White Paper

SPECTRE TOKEN | ECOSYSTEM | USE CASE

- Karl Marx

The
production of too
many useful things
results in too many
useless people.

Introduction

Launched on March 15th 2022, during the start of Crypto Winter Spectre Coin is one of the fastest growing communities in utility coins. We are on a mission to bring crypto to every single person while also helping every needy life on the planet.

"The heaviest penalty for declining to rule is to be ruled by someone inferior to yourself."

— Plato

Built on Binance Smart Chain

with extremely fast 5 second block times and cheaper gas fee than Ethereum.

Projects which as based on community involvement are totally untamed like Spectre, it can neither be controlled not handled by a single entity. A community which is herd together by millions with interconnected moments as thought by the great philosopher Karl Marx with that keeping on mind we have realized that true power doesn't come from a single source but by working together in harmony.

We did not create this from the safety of an organization. All the developers and marketers having sharp minds have been assembled together for the first time to create something Phenomenal . These Brilliant minds before Spectre have never collaborated earlier and all are a fresh team of developers, designers, moderators, Shillers and marketers. Anyone is free to join the Spectre team to make Spectre "Phonominal".

Our Lead developer Shinobi had an idea of collective approach and decentralization in his mind with the collective help of two other developers from Norway and Netherlands. We started from thin air in the mind to start something.

Our Token Features

Community Powered

We believe in transparency hence we believe in community. To be a truly decentralized coin and ecosystem it must be community driven. Thirty Percent of the tokens are being sold in the form of ICO at a fixed price and the rest 30% of the coins are held by the developers for a period of 3 years so that it can be utilized for community activity, including Marketing , Burn and Incentivizing.

Rewards-in-built

With every transaction which happens either by trade or transfer 3% of the transaction is distributed among all the wallet holders, 1% is transferred to Liquidity or Burn and 1% is sent to charity wallet.

Locked LP for 10 years

Thirty percent of the LP tokens are locked for 10Years to ensure the safety and longevity of the coin establishing a long term trust among the buyers and users of the coin.

Locked Dev coins

Developers will not use the coins for sale apart for the purpose of Marketing, providing incentives and Influence marketing and development of the ecosystem.

Tokenomics

Pancake swap address

Total Supply

2.1 Quadrillion

ICO

30% of Total Supply

Dev Lock Tokens

30% of Total Supply

Exchange Supply

40%

Our Aspirations

Spectre Blockchain

Since we know that our ecosystem will be a vibrant one hence we intend to transport this coin into a blockchain making by creating our own Spectre Blockchain which in future will fuel the blockchain's transaction.

Spectre Marketplace

A marketplace which connects us to our existing e-commerce market and incentivizing us by using the Spectre token rather than the normal fiat currency

Spectre Insurance

Providing Insurance at lower than market rates so that every possible means are utilised to provide insurance to almost everyone who cannot afford.

Spectre Swap

We intend to provide our own Defi Swap Exchange so as to provide ultimate liquidity to our community users in order to establish a life long trust among our community members

Spectre Finance

We intend to start our own Community financing option so even the smallest of our members can bring their business ideas to life. Thanks to the Spectre Finance system where we would fund Greenfield and Brownfield projects, even tenders and government approved projects will be financed by the community and to ensure its safety all the finances will be insured.

Spectre Education

We intend to start the very beginning of education through the power of blockchain. We intend to educate our community so that everyone in our community should have the dignity to earn and learn the best in class learning. From basic academics to learning advanced AI learning and technology development.

Why we chose Binance Chain?

Binance Smart Chain (BSC) was developed as a means of utilizing solidity-based smart contracts with much greater speed and efficiency than other, competing chains. With decentralized exchanges on BSC offering lightning-fast swaps and extremely low fees, BSC has started to become one of the most widely used blockchains for Decentralized Finance (Defi). BSC uses a token protocol developed by the Binance Team called BEP-20. Known for 5 second block speeds much faster than doge with 1 minute block speeds. These 2 articles compare block speed:

Advantages of the Binance smart chain are:

It's a proprietary blockchain, which will provide security and safety to all users and developers.

Its native dual chain interoperability will allow cross-chain communication and scaling of high-performance dApps that require a fast and smooth user experience. It's EVM-compatible and will support all of the existing Ethereum tooling along with faster and cheaper transactions.

Its on-chain governance with Proof of Staked Authority consensus, built on 21 validators who validate the transactions, will provide decentralization and enable significant community involvement.

Roadmap

Phase 1

- Website Launch
- 5000 Telegram members
- Coin development
- ICO in India with direct partnership through Bharat BTC - India's first Crypto Mining Company

Phase 2

- Listing on coin gecko
- Listing on coin market cap
- Listing on Pancake Swap
- 27,000 Telegram members
- 27,000 Holders
- Creation of marketplace for real time transactions on e-commerce website & Utility payments, Voluntary donation for community + charity partnership
- Bridge more chains

Phase 4

- 150,000 Holders
- Creation and release of Spectre Swap
- Addition of way more Coin use cases by means of voting
- Creation of Spectre Wallet Growth Tracker

Phase 3

- 100,000 Holders
- 100,000 Telegram members
- Large Influencer market push
- Creation of more utility marketplaces for community
- Insurance & DeFi financing
- Website revamp v2

Phase 5

- 300,000 Holders
- Release of our own Spectre Blockchain utilizing SPEC as its blood for fueling transactions
- Release of NFT marketplace & NFT collection
- Giveaway PORSCHE to community
